

MUHAMMAD SULEMAN

Senior React Native & Front-End Engineer • React.js • Next.js • TypeScript

Lahore, Pakistan • Open to Remote • +92 303 4331364 • sulemanashiq984@gmail.com • [LinkedIn](#)

PROFESSIONAL SUMMARY

Senior Software Engineer with **6+ years** building high-performance **React Native, React.js, and Next.js** applications across fintech, eSIM/telecom, edtech (school management & learning platforms), e-commerce, and media. Proven record leading teams and delivering **iOS, Android, and Web** products to global users. Expert in **TypeScript, scalable architecture, REST/GraphQL, CI/CD, and test-driven development**.

CORE TECHNICAL SKILLS

Mobile	React Native, Expo, iOS, Android, Native Modules, Reanimated, React Navigation, Push Notifications (FCM, APNs), Deep Linking, App Store & Play Store Deployment
Frontend (Web)	React.js, Next.js (SSR / SSG / App Router), JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Styled Components, Material UI, Responsive Design, SEO
State & Data	Redux Toolkit, Redux Saga, Zustand, Context API, React Query, GraphQL, Apollo, REST APIs, WebSockets, Firebase
Backend & APIs	Node.js, Express.js, Firebase (Auth, Firestore, Cloud Functions), Stripe, Payment Gateways, JWT
Testing & DevOps	Jest, React Testing Library, Detox (E2E), Bitrise, Fastlane, GitHub Actions, CI/CD, Sentry, Crashlytics
Tools & Workflow	Git, GitHub, GitLab, Jira, Agile / Scrum, Code Reviews, Mentoring
Languages	JavaScript, TypeScript, C++, Java (familiar), HTML, CSS

PROFESSIONAL EXPERIENCE

Senior React Native Developer • Alfabolt (Nomod)

Nov 2024 – Present | Remote

- ▶ Lead end-to-end development of **Nomod**, a fintech platform for payment links, in-person card payments, and merchant transactions — delivered across **iOS, Android, and Web**.
- ▶ Built customer-facing web flows and merchant dashboards in **React.js and Next.js (TypeScript)** with SSR pages, SEO-optimized routes, and responsive UI.
- ▶ Architected reusable components in **React Native + TypeScript**; reduced render times via memoization, list virtualization, and lazy loading.
- ▶ Integrated secure payment flows (card, Apple Pay, Google Pay, BNPL) and partner SDKs; collaborated with PMs, designers, and backend engineers in agile sprints.

Senior React Native Developer • AA'LA Solutions

Jun 2021 – Dec 2024 | Lahore, PK

- ▶ Shipped multiple production **mobile and web applications** across fintech, eSIM/telecom, edtech (school management), music streaming, and fashion-rental domains used by thousands of active users.
- ▶ Built reusable component libraries with **React Native, React.js, and TypeScript**; standardized UI/UX, accelerated feature delivery, and championed clean architecture.
- ▶ Set up CI/CD with **Bitrise + Fastlane** — automated builds, tests, and store deployments.
- ▶ Wrote unit and end-to-end tests with **Jest and Detox**; mentored junior developers and ran code reviews to uphold quality.

Senior React Native Developer (Team Lead) • Dankia Solutions

Dec 2019 – Dec 2023 | Remote • Part-time

- ▶ Led a small cross-functional team delivering **cross-platform mobile apps** for clients across multiple industries; owned architecture, tooling, and on-time delivery.

- ▶ Established Git workflows, code-review standards, and internal documentation to streamline onboarding and team productivity.

React Native Developer · Youni

Part-time | Remote

- ▶ Enhanced and optimized the **Youni mobile app** — used at UK universities (Oxford, Cambridge, St Andrews, Durham, York).
- ▶ Refactored legacy modules into modular, performant components; reduced crash rates and improved Time-to-Interactive.

KEY PROJECTS

Nomod — Fintech payment-link & POS platform (Global) · [iOS](#) · [Android](#) · [Web](#)

Stack: React Native, React.js, Next.js, TypeScript, Redux Toolkit, REST APIs, Stripe, Bitrise.

Youni — University event-organizer app (UK) · [iOS](#) · [Android](#) · [Web](#)

Stack: React Native, Redux, REST APIs, Push Notifications, Firebase Analytics.

Pickle — Premium clothing-rental marketplace (US)

Stack: React Native, TypeScript, Stripe, Firebase, GraphQL — secure rental checkout and rich product browsing.

Fonos — #1 audiobooks & podcasts platform (Vietnam) · [iOS](#) · [Android](#) · [Web](#)

Stack: React Native, TypeScript — offline listening, background playback, CarPlay, and personalized discovery.

Best Connect & RingMI — Global eSIM platform (200+ countries) & VoIP calling/messaging app

Best Connect: [iOS](#) · [Android](#) · [Web](#) | *RingMI:* [iOS](#) · [Android](#)

Stack: React Native, TypeScript, REST APIs — in-app eSIM activation, QR-code provisioning, wallet & top-ups, multi-country plan management, and HD VoIP calling/messaging.

EDUCATION

B.S. Information Technology (BSIT) · **Punjab University College of Information Technology (PUCIT), Lahore** 2016 – 2020
